

Rayu Corp Cybersecurity KPI Dashboard & Executive Metrics

Prepared By: Sebastion Mauldin

Role: Cybersecurity Program Manager

Date: June 2026

Executive Summary

This dashboard provides executive leadership with a high-level view of Rayu Corp's cybersecurity program performance. It tracks key performance indicators (KPIs) across governance, risk management, vendor security, access management, security awareness, and incident response to support informed decision-making and continuous improvement.

The dashboard aligns security metrics with business objectives, enabling leadership to monitor organizational security maturity, identify emerging risks, and evaluate progress against the Enterprise Security Modernization Program roadmap.

The metrics are reviewed monthly by the Cybersecurity Program Manager and presented quarterly to the Security Steering Committee to ensure accountability, transparency, and strategic alignment.
