Rayu Corp Cybersecurity KPI Dashboard								
Rayu Corp Cybersecurity KPI Dashboard								
KPI #	KPI Group	KPI Name	Business Purpose	Formula / Measurement	Target	Reporting Frequency	Data Source	Owner
1	Security Awareness	Employee Training Completion	Measure employee participation in required security awareness training.	Employees Completed ÷ Total Employees × 100	≥95%	Monthly	LMS / HR Reports	HR Director
2	Identity & Access Management	MFA Coverage	Measure adoption of multi-factor authentication across enterprise accounts.	MFA Enabled Accounts ÷ Total Accounts × 100	≥95%	Monthly	Microsoft Entra ID / IAM Reports	IT Manager
3	Risk Management	Critical Risks Open	Monitor unresolved critical enterprise risks requiring executive attention.	Count of Critical Risks	≤3	Monthly	Enterprise Risk Register	Cybersecurity Program Manager
4	Vendor Risk	Critical Vendor Assessments Completed	Track completion of annual security assessments for critical vendors.	Completed Assessments ÷ Total Critical Vendors × 100	100%	Quarterly	Vendor Risk Register	Cybersecurity Program Manager
5	Incident Response	Mean Time to Respond (MTTR)	Measure the average time required to respond to security incidents.	Average Response Time (Hours)	<4 Hours	Monthly	SIEM / Ticketing System	Security Operations Lead
6	Incident Response	Tabletop Exercises Completed	Ensure incident response plans are validated through exercises.	Completed Exercises	2 per Year	Semi-Annual	Security Program Documentation	Cybersecurity Program Manager
7	Vulnerability Management	Critical Vulnerabilities Remediated Within SLA	Measure timely remediation of critical vulnerabilities.	Vulnerabilities Closed Within SLA ÷ Total Critical Vulnerabilities × 100	≥95%	Monthly	Vulnerability Scanner	Security Engineer
8	Access Governance	Quarterly Access Reviews Completed	Ensure privileged user access is reviewed regularly.	Completed Reviews ÷ Planned Reviews × 100	100%	Quarterly	IAM Reports	IT Manager
9	Compliance	Security Policy Reviews Completed	Track scheduled policy review completion.	Policies Reviewed ÷ Policies Scheduled × 100	≥90%	Quarterly	Governance Documentation	Compliance Officer
10	Security Operations	High-Risk Findings Remediated Within SLA	Measure remediation performance for high-risk security findings.	Findings Closed Within SLA ÷ Total Findings × 100	≥90%	Monthly	Vulnerability Management Platform	Security Operations Lead

Executive Commentary								
Observation	Commentary							
Security Awareness	Employee participation exceeded the annual target of 95%, indicating strong engagement with the awareness program.							
Identity & Access Management	MFA coverage increased to 98%, significantly reducing credential-related risk exposure.							
Enterprise Risk	Open critical risks decreased from seven to two due to proactive mitigation and governance oversight.							
Vendor Risk	All Tier 1 vendors completed annual security assessments, improving third-party risk visibility.							
Incident Response	Mean Time to Respond improved from 6.1 hours to 2.4 hours through process improvements and training.							
Vulnerability Management	Critical vulnerability remediation consistently improved and exceeded the organizational SLA by June.							
Overall Program Health	The Enterprise Security Modernization Program remains on schedule and demonstrates measurable improvements across governance, risk management, security operations, and compliance.
